Subject: CAV

Pat,

I've completed all 25 items for you. Good luck with the DD1348s. I know for a fact that you can get to CAV from any computer, as long as you have the correct address and your userid and password. We have people in CAV that have worked from home.

The address is <https://cavweb.fmso.navy.mil/>

I'm sure you'll have to download plugins, and that's a real joy now. So good luck. If you have any problems, call Terry on X7659, Cindy on X7661 or Glo on X7009.

Talk to you later.

Mel

Gabe,

Could you please direct any future communications directly to me. I have sent a number of e-mails to Brian (no response), with cc's to you and Mr. Crowell. You have a way to contact me. Please do so.

Brian,

Did you get the form I filled out for Family Medical Leave and turn it in? I told you it was on my desk. Remember, you told me I needed a letter from my dad's doctor? Did you get the fax/letter from Dr. Law's office? These are simple yes/no questions. Please answer by replying to this e-mail. Thanks.

Pat

Subject: Letter/Fax

Hello Brian. As was requested, I had the doctors office fax the letter. Please confirm receipt of the Letter faxed from Dr. Law's office yesterday. I am not sure why it took so long to get it, but I cannot dictate their schedule. We do not know their results of the x-rays yet. I believe another doctor is reviewing them and comparing them with the ones taken when my dad was in the hospital a few months back. Hope all is well with everyone there. Please let me know if there is anything else you need. Thanks, Pat
